EDUCATION

FSB Degree College, Hyderabad, India
Bachelor of Computer Applications (BCA) | CGPA: 8.5/10 | 2024 - 2027

TECHNICAL SKILLS

Programming Languages: Python, PHP, SQL, JavaScript, HTML, CSS
Frameworks & Technologies: React, Flask, Django, FastAPI, LangChain
Databases & Tools: PostgreSQL, Supabase, Git, Linux, VS Code, OCR, APIs

PROJECTS

ShopMind AI — AI Business Manager for Small Shops

- Built a full-stack AI-powered business management platform for small retail shops.
- Developed 10+ modules including inventory management, demand prediction, AI pricing, OCR receipt scanning, and WhatsApp order automation.
- Integrated LangChain and Gemini API for AI-driven pricing optimization and business insights.
- Implemented OCR-based receipt scanning to automate inventory and expense tracking.
- Tech Stack: React, FastAPI, PostgreSQL, Supabase, LangChain, Gemini API, OCR, Twilio.

AI-Powered Startup Helper — Advanced RAG System

- Developed an advanced Retrieval-Augmented Generation (RAG) system for startup guidance and planning.
- Implemented multi-stage retrieval pipelines and vector database integration to improve response relevance and reduce hallucinations.
- Designed 10+ features including startup idea validation, market analysis, and growth recommendations.
- Tech Stack: Python, Flask, Vector Database, OpenAI API.

DevMind AI — Developer Productivity Platform

- Built an AI-powered developer productivity workspace for debugging, documentation, and code generation.
- Integrated multiple development tools into a single platform to reduce context switching.
- Tech Stack: Python, APIs.

RELEVANT COURSEWORK

Data Structures, Database Management Systems, Computer Networks, Operating Systems, Software Engineering

ACHIEVEMENTS

- Participated in Codex Hackathon.
- Completed Robotics Workshop (Solo Seven).

EXTRACURRICULAR ACTIVITIES

- Student Council Member — Organized student events and coordinated activities.
